Weight management

Glucozone™

Glucozone™ is a comprehensive formula combining the key herbs *Gymnema* and *Cinnamon* to support optimal blood sugar regulation. And the trace nutrients Chromium, Zinc and Biotin necessary for optimal glucose uptake by the cells, where it is burned as fuel. *Withania* provides vital adrenal and nervous system nourishment to support the body in times of stress and fatigue.

This complex formula also provides support for healthy cardiovascular function, optimal cholesterol levels and overall health and wellbeing.

Blood sugar regulation may be compromised by a diet high in carbohydrates, stress and poor nutrition.

This may lead to sweet cravings, afternoon fatigue and low energy. Healthy blood sugar regulation supports healthy energy levels, optimal weight management and healthy cardiovascular function.

When used in conjunction with a healthy diet and exercise plan **Glucozone™** provides ultimate support to your weight management goals.
